

Officer-in-Charge, URGENT
Royal Canadian Mounted Police
Canadian Firearms Program
Ottawa, ON K1A 0R2

Sir/Madam

Please find enclosed photographs  printed from his public Facebook site.

 has a violent criminal history, was subject to firearm prohibitions, and has been named in police reports in Niagara, Cayuga, Marystown, Newfoundland and Saint Pierre, French Territory. He is a predator who sexually abused  and continues to threaten and harass them. He was last arrested approximately one year ago by the Ontario Provincial Police, on account of his mental instability. He threatened one of the reporting officers (OPP) that he was going to cut off  fingers and hang   has been diagnosed with multiple dangerous psychological conditions and the OPP themselves asked that he not be released.

Despite all of this, you can clearly see  holding and using what is described to me as a high power, bolt action rifle as well as a high capacity shotgun. This, only days after violating a court order by posting sensitive case material to social media.  is making his intent and capability quite clear. This is a direct threat to my family. How on earth you could even entertain granting him license to have those guns is beyond me. Have you lost your mind? Your decision to permit him to do this completely disregards your duty of care to the public. It underscores the principal problem of gun control in Canada: police negligence.

You may already know that  family has commenced litigation that names the OPP, amongst others, for the misery and suffering my family has endured right under the watchful eye of agencies and authorities just like yours. This incident will be added to that dossier. We have more than enough to deal with as it is, without being made to feel afraid of 's intentions

I want to be very clear that I expect police to take immediate action. I expect that they will attend his home, remove any and all firearms, revoke whatever license or permit you may have issued and lay appropriate charges. I want you to know that if you force me to remind you of this matter, I will do so by way of the CBC.

Sincerely,
